FOREWORD

In compiling a work of this character, where information concerning people from all parts of the world and who have all kinds of temperments, etc., is involved it should be borne in mind that inaccuracies will occur because some of these people are quite reticent about giving the correct dates and places of their birth and while some appear to be willing enough to give this information it is later found that they wish to appear either younger or older than they really are and the data already obtained is found inaccurate. Also it has been found that two different biographers will quite often disagree as to the correct date of birth for a certain person so, in all, it has been very difficult to get this data in such shape as to appear at least correct within certain limits.

Another point of data which will verily change over night is the color of a player's hair, especially among the actresses. Today one may have very beautiful blonde hair whereas tomorrow, well it is just as apt to be one color as another, so the data as contained herein is the color upon our last observation.

For the above and other reasons it is quite obvious that the compiler cannot, and does not, assert that all or any of the data contained herein is correct, but he does believe that such data is as nearly accurate as it is humanly possible to obtain under the circumstances.

Subsequent editions of this work will carry such corrections as are found to be necessary and such data as is not contained herein at this time will be added as it is available.

Acknowledgment is made of valuable assistance rendered in compiling this work, without which it would not have been possible, and it is respectfully dedicated as a whole, to all of the players whose names appear herein and offered to the public "as is" without any apologies whatsoever.

The Compiler.

DO YOU KNOW

THAT. The Motion Picture Industry is the fourth in size in the United States and represents an investment of \$1,500,000,000.00?

THAT. Seventy million Americans attend the movies—17,000,000 tickets are sold daily. The average weekly attendance at motion picture theatres is over 100,000,000. 20,000,000 farm people travel an average of six and one-half miles to go to the movies?

THAT. There are over 25,000 motion picture theaters in the United States?

THAT. Construction of motion picture theatres in 1927 (houses costing over \$150,000.00) amounted to \$199,652,000.00?

THAT. 300,000 persons are annually employed in the industry, and receive salaries amounting to \$1,000,000,000.00.

THAT. Cameras for the taking of motion pictures cost from \$3,500.00 to \$6,000.00 each?

THAT. The weekly payroll at the Paramount Studios is from \$150,000.00 to \$200,000.00. And at Metro-Goldwyn-Mayer Studios about \$150,000.00 per week?

THAT. Most of the stars have business managers who handle all of their financial matters, etc.?

THAT. Carpenters, electricians, readers, research workers, publicity writers, etc., usually get salaries of about \$50.00 per week. And Script girls, stenographers, secretaries etc, about \$35.00 per week. Office boys, clerks, etc., receive about the same pay as in other lines of business?

THAT. Players working on contracts receive their pay whether they are working or idle?

THAT. Estelle Taylor (Mrs. Jack Dempsey) received her salary, amounting to \$1,200 per week, for an entire year without appearing in a single picture because she had a contract?

THAT. Esther Ralston got her start in motion pictures by doubling with her beautiful hands. And that Dorothy

Dillon is paid about \$300.00 per month just for the use of her beautiful hands before the camera?

THAT. Raymond Novarro's contract with Metro-Goldwyn-Mayer Studios calls for a salary of \$7,500.00 per week?

THAT. The largest insurance policies are carried by movie stars as follows?

Gloria Swanson	\$2,000,000.00
Mary Pickford	2,000,000.00
Douglass Fairbanks	2,000,000.00
Harold Lloyd	1,000,000.00

Gene Hersholt	350,000.00
Conrad Nagel	250,000.00
Dolores del Rio	250,000.00
Laura La Plante	250,000.00
Lon Chaney	250,000.00

For the year 1921	576,968.49*
For the year 1922	71,208.73
For the year 1923	89,371.83
For the year 1924	170,048.72

*It is assumed that the heavy tax paid in 1921 is due to the enormous profits from one of Mr. Chaplin's most successful pictures, "The Kid."

THAT. Tom Mix is reputed to be worth \$5,000,000.00 and that his contract in pictures calls for \$17,500.00 per week. He presented to his wife as a birthday present on her last birthday a check for \$100,000.00 On Mr. Mix's pay roll are sixty-five men, including fifteen cowboys to look after seventy-five horses he owns at his Westwood Rancho. THAT. Loretta and Polly Ann Young and Sally Blane are sisters. All are in pictures, all are under contract to different

producers and all are unlike as a bean, a pea and a turnip. All of these girls are considered very beautiful and appear to have wonderful futures before them. It would appear as though they come from a nomandically inclined family as Polly Ann was born in Denver, Colorado, in 1909.
